## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 17, 18, 20, and 36 are objected to because of the following informalities: Claims 17, 18, and 20 refer to "the deck" therefore, it appears that these claims should depend from claim 16, not claim 15; and Claim 36 line 1, after "connectable" it appears that --to-- should be inserted. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-15 and 21-41 are rejected under 35 U.S.C. 102(b) as being anticipated by Sullivan #5,064,310. Sullivan discloses a floating breakwater type structure comprising: an array of elongate rods 24c made of flexible material and adapted to bend/or deform into arcuate shapes and connectors 36, 46.

### ***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 16-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sullivan '310 in view of Wilcox #5,707,172. Sullivan discloses the claimed invention

Art Unit: 3673

except for the deck. Wilcox teaches that it is known to provide a deck 25 on top of a floating rod/tube as set forth at column 2, lines 7-13. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide a deck, as taught by Wilcox in order to provide a walkway on a floatable structure.

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
